Year 4

Week 26

## Year 4 - Week 26

### This week in a nutshell:

- As with last week there will be no new objectives introduced this week. Instead, questions will be taken from the full range of objectives, as shown in the progression document, with one or more 'trickier' objectives identified each week for recap.
- If they are not already doing so, from this week, children should be encouraged to identify whether a question should be tackled using a written or mental method, rather than relying on the identification symbols.
- The recap objective for this week is:
  - *Multiplying three or more single digits together* - with children needing to use their distributive and associative laws to help them.
