

Make Easter Egg Rocks

<https://littlepinelearners.com/easter-egg-stacking-rocks/>

If you make lots of them then you can hide them around your house or garden and go on an Easter egg hunt!

Materials needed:

- Rocks/ large pebbles
- Tape/ different shaped stickers
- Brightly coloured paints/ marker pen

Instructions:

1. Use the tape and stickers to cover the rocks in different patterns.

2. Paint over the whole rock using a bright paint. If you don't have any paint then you can colour them in using brightly coloured marker pens.

3. Let the paint dry and then peel off the stickers to reveal your Easter egg rock! If your parents have any varnish then you can ask them to varnish your Easter egg rocks so they will have a nice shine and last longer.
